

# Principles of EAFM

## fish610.1 Introduction to the Ecosystem Approach to Fisheries Management

Haley Frater

February 12, 2018

# Learning Objectives

# Key Principles

- The formation and role of the key principles
- What are the key principles of EAFM

# Good Governance

- What is good governance
- Characteristics of good governance

# Appropriate Scale

- Definition within EAF
- Types of scale
- Selecting the correct scale

# Increased Participation

- Definition and examples of stakeholders
- Explanation as to why stakeholders are included

# Multiple Objectives

- Why multiple objectives arise
- How multiple objectives are addressed
- Examples of multiple objectives

# Institutional Cooperation and Coordination

- Examples of institutions included
- Cooperative or coordinating activities: what they are and why they are included
- How cooperative or coordinating activities achieved

# Adaptive Management

- Definition of adaptive management
- Why adaptive management would want to be used within an EAFM framework
- How adaptive management would be applied within EAFM

# Precautionary Approach

- Definition of precautionary approach
- Why the precautionary approach would want to be used within an EAFM framework
- Application within EAFM in regards to UN documentation
