

# Ranks, constraints and correlations in multivariate regression

stats545.3 545.3 Hypothesis tests in the linear model, model building and predictions

Gunnar Stefansson

November 28, 2020

## Problem statement

When  $\text{rank}(\mathbf{X}) < p$ , the estimate  $\hat{\beta}$  is not unique.

# Constraints

To specify  $\beta$  uniquely we can add constraints...
